

ALEXANDER UDAG

Software Developer / Web Developer

+639605139944 | alexanderudag@gmail.com | Taguig City, Philippines | github.com/Gadu25

SUMMARY

A software developer with 4+ years of experience who values fundamentals, best practices, and performance. Spent most of the career on web development, from frontend, to backend and up to databases. Flexible - can work individually with little to no supervision and can work with large team setups. Got experience and interest in AI tooling for productivity boost.

PROFESSIONAL EXPERIENCE

Software Engineer - Frontend, Flexicon Solution

2024 - present

Maintain and contribute to 40+ Vue.js project repositories. Cleaning up code to improve performance and readability. Actively working on migration from Vue2 to Vue3 while collaborating closely with cross-functional teams in an Agile environment, conducting code reviews, and managing Git workflows to ensure maintainable architecture.

Full Stack Web Developer, Department of Science and Technology

2023 - 2024

Built a Project Management Information System (PMIS) using Vue.js, Laravel, and MySQL, improving internal project tracking and workflow efficiency. My role included documentation, testing, bug fixes, and presenting system demos to stakeholders.

Junior Frontend Developer, Xtendly Philippines

2022 - 2023

Maintained and enhanced client websites using React.js and Laravel, improving UI consistency and cross-platform functionality.

EDUCATION

Bachelor of Science in Information Technology

Technological University of the Philippines - Taguig

Studied fundamentals of computer programming from logic gates, C programming up to databases and web development. Finished with "cum laude" award ranked 19 of Batch 2022 graduates.

SKILLS

- Frontend Development (Js, React, Next, Vue, Nuxt, Tailwind, SCSS)
- Backend development (Go, PHP)
- API development (REST, GraphQL)
- Database management (MySQL, PostgreSQL)
- WordPress (custom theme)
- Linux proficiency
- AI utilization (Open code, ChatGPT, Claude)
- Git (PR reviewing, workflows, collaboration)
- Bitbucket / Jira

PORTFOLIO & HOBBY PROJECTS

Personal portfolio

<https://alexander.udaglab.com>

A web based introduction of who I am, my work experiences and things that I've been working on.

Megome

<https://megome-beta.udaglab.com>

A content management tool, built for developers to support their portfolio by serving public APIs which data are modifiable inside this web app.
